Compliance Disclosure Statement Pursuant to the EU Data Act

Consumer Notice：

This document is prepared in accordance with the requirements of Article 3 of the EU Data Act (Data Act), for the purpose of fully disclosing to you the data processing information related to the purchased Connected Products of Lumi United Technology Co., Ltd. (hereinafter referred to as “Lumi Company”, “we”, “us” or “our”) and our relevant services.

This document only applies to your use of **DIN Rail Module (4 Channels) AW110K** provided by us.

According to Data Act, the following Lumi **DIN Rail Module (4 Channels) AW110K** may be classified as connected products.

Numbers	Products
1	DIN Rail Module (4 Channels) AW110K

The data collected by Lumi 4-Channel Switch Controller may vary depending on the versions and models.

I. Connected Product Information Disclosure

1. Data Generation Details

Data Type	Purposes of Data Processing	Format	Estimated Volume	Data Generation Frequency and Continuity	Storage Method	Product Involved
Connectivity and Diagnostic Data	Used for network access, connection maintenance, and device diagnostics.	Modbus RTU and TLV	Up to 1 KB per event; heartbeat data up to 50 KB per day.	Generated when the device joins or leaves the network and periodically during operation.	Stored on the controller.	4-Channel Switch Controller
Energy Consumption and Switch Status Data	Used for electricity monitoring and reporting the on/off status of each channel.	Modbus RTU	Up to 256 B per record.	Generated periodically or when the device is operated or its status changes.	Stored in the controller's flash memory and cleared when the controller is reset or restored to factory settings.	4-Channel Switch Controller

Data Type	Purposes of Data Processing	Format	Estimated Volume	Data Generation Frequency and Continuity	Storage Method	Product Involved
Configuration and Safety Status Data	Used for device configuration and reporting safety events such as overload protection.	Modbus RTU	Up to 256 B per record.	Generated after network access or power-on, and when configuration or safety status changes.	Stored in the controller's flash memory; configuration data are cleared on reset or factory restoration, and alarm data are cleared when the alarm is resolved.	4-Channel Switch Controller
Firmware Update Data	Used to report firmware download and update results.	Modbus RTU	Up to 100 B per update record.	Generated during a firmware update.	Not stored on the controller.	4-Channel Switch Controller

2. User Access and Control Rights

You have rights and choices when it comes to the product data. You may be afforded certain rights under applicable laws, which may include the right to access, retrieve or erase the data.

You may submit a request to exercise your rights under applicable laws at privacy@lumiunited.com. You may appeal any decision we have made about your request by following the instructions in the communication you receive from us notifying you of our decision. We will resolve your request within seven days after receiving your email.

II. Related Services Information Disclosure

1. The details of the product data that we are expected to obtain

Nature of Data	Purposes of Data Processing	Estimated Volume	Collection Frequency	Storage Method	Product Involved
Energy Consumption and Switch Status Data	Used for electricity monitoring and reporting the on/off status of each channel.	Up to 256 B per record.	Collected periodically and when the device is operated or its status changes.	Stored locally on the device and in Aqara Studio.	4-Channel Switch Controller
Configuration and Safety Status Data	Used for device configuration and reporting safety events such as overload protection.	Up to 256 B per record.	Collected after the device joins the network or powers on, and when its configuration or safety status changes.	Stored locally on the device and in Aqara Studio.	4-Channel Switch Controller

- **Access Method:** You have rights and choices when it comes to the product data obtained by the related service. You may be afforded certain rights under applicable laws, which may include the right to access, retrieve or erase the data. You may submit a request to exercise your rights under applicable laws at privacy@lumiunited.com. You may appeal any decision we have made about your request by following the instructions in the communication you receive from us notifying you of our decision. We will resolve your request within seven days after receiving your email.

2. The details of the Related Service data to be generated

Nature	Purposes of Data Processing	Estimated Volume	Collection Frequency	Storage Method	Related Service Involved
Account, Authorization, Device-Relationship and Configuration Data	For account binding, access control, device organization and configuration management.	Normally one record per operation.	Generated when an account, user, device relationship or configuration changes.	Stored mainly in Studio; cloud binding data are retained until the user unbinds the device.	Aqara Studio / Aqara Home App/ Aqara Life App
Scene, Automation and Control Data	For saving user settings, executing scenes and automation, and reporting control results.	Normally one record per action.	Generated when users configure or control the device, or when an automation is triggered.	Stored in Studio; data are transferred externally only through enabled integrations.	Aqara Studio / Aqara Home App/ Aqara Life App
Service Log, Alarm, Backup and Update Data	For logs, alarms, energy analysis, backup and updates.	Energy: one record every 30 minutes; backup: about 4.99-5.55 MB.	Generated periodically or when a related event occurs.	Stored in Studio; the latest three backups are retained. Cloud upload is optional.	Aqara Studio / Aqara Home App/ Aqara Life App

- **Access Method:** You have rights and choices when it comes to the related service data. You may be afforded certain rights under applicable laws, which may include the right to access, retrieve or erase the data. You may submit a request to exercise your rights under applicable laws at privacy@lumiunited.com. You may appeal any decision we have made about your request by following the instructions in the communication you

receive from us notifying you of our decision. We will resolve your request within seven days after receiving your email.

Data Storage and Deletion Information

Where Lumi stores product data or related service data in the cloud for users in the European Union, such data are stored on servers located in Germany. Cloud-stored data are retained for up to 7 days by default, unless a different retention period is specified in the relevant table or applicable service terms. Other applicable storage arrangements and retention periods are described in the relevant tables. Data stored locally on the product may be deleted by restoring the product to its factory settings. Please refer to the user manual applicable to the relevant product model for detailed instructions. Please note that a factory reset is irreversible. To delete data stored in the cloud or by a related service, please use the deletion function provided by the applicable App, Aqara Studio or other related service, where available. If no such function is available or you are unable to delete the data directly, please contact Lumi at privacy@lumiunited.com. Certain data may be retained where required by applicable law or where necessary for the establishment, exercise or defence of legal claims.

3. Third-Party Sharing

In general, Lumi will not share these data with third parties. Lumi will ask for the consent of users in the cases that it needs to invite third parties to provide services for users.

4. Identity of Data Holder and Processors

- Data Holder: Lumi United Technology Co., Ltd.
  - Geographical Address: Room 801-804, Building 1, Chongwen Park, Nanshan iPark, No. 3370, Liuxian Avenue, Fuguang Community, Taoyuan Residential District, Nanshan, Shenzhen, China.
  - Contact: privacy@lumiunited.com
- There are no other data processors.

5. The indication of how the user can request that the data be disclosed to a third party and how to stop the data transfer

- Sharing Request Method:

a. You may submit a request to exercise your rights under applicable laws at privacy@lumiunited.com

- Sharing Termination Method:

a. You may submit a request to exercise your rights under applicable laws at privacy@lumiunited.com

6. Right of appeal

You may exert your appeal right by contacting us at privacy@lumiunited.com, and we will respond to your request within timeframe set out under your applicable data protection laws.

7. Complaint Right

You have the right to lodge a complaint alleging an infringement of Chapter II of the Data Act with the competent authority designated under Article 37 of the Data Act in the relevant EU Member State.

Contact details for the competent authority or data coordinator may be obtained from the official website of the relevant EU Member State or from the European Commission's public register, where available.

8. Trade Secrets Statement

Lumi United Technology Co., Ltd. is the trade secret holder.

9. Contract Duration and Termination

- Service Duration: In general, the contract for providing related services will be valid until consumers terminate it or withdraw their consent for data processing.
- Termination Scenarios:

a. You withdraw your consent;

b. After we confirm your deletion or cancellation;

c. We terminate the operation of the corresponding products and services.
